SALIPUR COLLEGE (AUTONOMOUS) SALIPUR

REPORT ON VOLUNTARY BLOOD DONATION CAMP

A Voluntary Blood Donation Camp was organised on 4th November 2026 on the college campus of Salipur Autonomous College, Salepur, from 9:00 AM to 4:00 PM. The camp was organised by the Red Ribbon Club (RRC) in collaboration with the Youth Red Cross (YRC), National Cadet Corps (NCC), National Service Scheme (NSS), Ranger and Rover, and Sambad Ama Odisha, under the able guidance and supervision of the Principal, Dr. Manoja Manjari Swain.

As we all know, there is no substitute for human blood, and a single unit of donated blood can potentially save up to three lives. Blood shortages continue to be a serious concern in many parts of society. Keeping this in mind, the camp was organised to create awareness about the importance of voluntary blood donation and to encourage students and staff members to come forward for this noble cause.

The camp received an encouraging response from the college community. A total of 75 units of blood were collected during the camp, with approximately 150 students and staff members actively participating and extending their cooperation to make the programme a grand success.

The active involvement, dedication and cooperation of all the participating organisations, volunteers, staff members and students contributed significantly to the successful organisation of the camp.

The programme concluded with a message that blood donation is a noble act of humanity, and every healthy donor can become a lifesaver.

With Sincere & Humble Regards
Jayashree Pattanayak
Lecturer in Physics
